Pilot proposal: 30 days

One month of Russet on your real numbers, with a target that can be measured.

The target, measurable

- By day 30: the report of the money standing still on your list of invoices, checked with you to the cent, with the proof row by row.
- The reminders for the overdue invoices ready and, with your yes, sent; the counter of the money collected, invoice by invoice.
- The target in euros we set together on the first day, on your numbers: € _____.

Day by day

When	What happens
Day 1	The company’s Russet space is open: protected sign-in, the first day guided in three steps.
Days 1–3	The open items export, or the ERP connected read-only. The report is ready.
Day 7	The numbers checked with you. Russet writes to you how much money is still standing still.
Days 7–30	The reminders, each with your yes; the counter of what really came in.
Day 30	The count, together: what was found, what was collected, what it costs. You decide whether to go on.

What Russet does

- It reads your numbers every day, read-only.
- It writes the report for the finance director, with the proof row by row.
- It prepares the reminders (e-mail or certified e-mail) and counts the money really collected.
- It answers you in “Help”: Russet answers, and a person when needed.

What we need from the company

- One contact person in the finance office, and an administrator of the space.
- The open items export, or a read-only user of the ERP.
- Half an hour a week to say yes or no to the reminders and to Russet’s proposals.

The guarantee

- Within 30 days you can ask for the first month back, without giving reasons.
- If you go on: within 90 days Russet brings you in twice what it costs, or works for free for up to 3 months. Full terms: russet.it/en/garanzia.

The price

The 30-day pilot is the first month: €490 + VAT.

Then, if you go on: Russet €490 a month, Russet Plus €990 a month (with the factory of software made for you), + VAT.

No set-up fee, no cost per person. If you go on, it renews month by month; if not, it closes and for 90 days you download all your data.

To start: write to us, we talk and open your company’s space.
